Intermediary report 3

Main author:  
Geoffrey Williams

Date of the release:  
January 2018

WG to which the report/ deliverable is related: 4

Grant period to which the report/ deliverable is related: GP2 (1.05.2017-30.04.2018)

Executive summary

The main tasks of WG4 is maintaining and assisting the information flow to members and stakeholders.

Website : The website has recently undergone a complete update in order to improve accessibility and download speeds. All the information concerning STSM has been updated with all the reports available. A new section dedicated to Stakeholders is in progress. Regular news posts are made and the three yearly newsletter is available on the site.

Social Networks: ENRESSH posts regularly of both Facebook and Twitter. Most recent posts concern the memorial to our friend and UK member Puay Tang who dies recently. The ENREESSH website was able to quickly put into place a memorial page dedicated to our much missed late colleague. Regular posts include forthcoming events as well as publications and activities by members of the action

Newsletter: The latest newsletter was published in December 2018 and is available on line. This meant that as planned three newsletters were successfully published and distributed by email and made available on the site.

Flyer: A flyer for distribution at conferences has been created and made available to members for distribution at events. The flyer was released in the conference bag of the SSH Impact Conference in Vienna in November 2018.

The objectives for the next work period have been defined as follows:

- Improvements on the existing website with a dedicated stakeholder page
- Updating of the separate Zotero bibliographies online in the single open resource.
- Definition of communication strategy for the final grant period and post action dissemination activities.
